Conformity Assessment

Emirates Conformity Assessment Scheme (ECAS)

Service Code

CA-ECAS-01

SERVICE DESCRIPTION

The Emirates Conformity Assessment Scheme is a Product certification Scheme being implemented by the Emirates Authority for Standardization and Metrology (ESMA) as mandated by the Federal Law 28 of 2001 with the objective of:

Providing health, economic, safety and environment protection by ensuring that services and products are in conformity with the relevant UAE Standards.

1) the conduct of the evaluation and surveillance (if required), including provision for examining documentation and records, and access to the relevant area(s), personnel, and client's subcontractors;

2) investigation of complaints;

3) the participation of observers, if applicable;

d) Client makes claims regarding certification consistent with the scope of certification;

e) Client does not use its product certification in such a manner as to bring the certification body into disrepute and does not make any statement regarding its product certification that the certification body may consider misleading or unauthorized;

f) upon suspension, withdrawal, or termination of certification, Client discontinues its use of all advertising matter that contains any reference thereto and takes action as required by the certification scheme (e.g. the return of certification documents) and takes any other required measure;

g) if Client provides copies of the certification documents to others, the documents shall be reproduced in their entirety or as specified in the certification scheme;

h) in making reference to its product certification in communication media such as documents, brochures or advertising, Client shall comply with the requirements of CAD or as specified by the certification scheme;

I undertake that the information provided in this application are correct and the documents submitted along with this application are true.
