

CEATEC 2020 ONLINE  
List of exhibitors for JETRO Global Connection

October 12, 2020  
Japan External Trade Organization (JETRO)

No.	Company Name	URL	Introduction	Country/Region
<b>Mobility, Health Tech, Smart City</b>				
1	Downtown.AI	<a href="http://www.downtown.ai">www.downtown.ai</a>	Downtown.AI leverages machine learning and big location data to analyze and predict human movements in cities.	Canada
2	Fetch.AI	<a href="https://fetch.ai/">https://fetch.ai/</a>	Fetch.ai, a Cambridge-based artificial intelligence lab, is building the infrastructure required for autonomous software agents to begin performing useful economic work on behalf of individuals, businesses and organizations.	UK
3	HyperSurfaces (Legal Entity: Mogeas Limited)	<a href="http://www.hypersurfaces.com">www.hypersurfaces.com</a>	HyperSurfaces is a seamless AI overlay of sensor fusion that empowers cheap, standard vibration sensors to become independently intelligent, on the edge, capable of recognising complex patterns such as human and machine behaviours, as they occur.	UK
4	OP SIS PTE LTD	<a href="https://opsis.sg/">https://opsis.sg/</a>	OP SIS provides only one in the world using psychology circumplex model resulting in more precise emotion measurements with two dimension data points.	Singapore
5	Wing Copter GmbH	<a href="https://wingcopter.com/">https://wingcopter.com/</a>	Wingcopter creates efficient and sustainable drone solutions to improve the lives of people worldwide through meaningful commercial and humanitarian applications.	Germany
<b>Mobility, Smart City</b>				
6	Brighter AI Technologies GmbH	<a href="https://brighter.ai/">https://brighter.ai/</a>	Brighter AI is a Berlin-based deep tech startup. Their leading anonymization solutions for video data are based on state-of-the-art artificial intelligence.	Germany
7	Humanising Autonomy Ltd	<a href="http://www.humanisingautonomy.com">http://www.humanisingautonomy.com</a>	Humanising Autonomy Ltd is a predictive AI company that improves the way vehicles and systems interact with people in any environment.	UK
8	i-5o	<a href="http://www.i-5o.ai">www.i-5o.ai</a>	i-5o provides manufacturers with AI powered digital twins for measuring and improving manual processes.	U.S.A.
9	Neolix Technologies Co., Ltd.	<a href="http://www.neolix.ai">www.neolix.ai</a>	Neolix provides Level 4 full autonomous driving technology safer and more efficient	China
10	Nota Incorporated	<a href="https://nota.ai/">https://nota.ai/</a>	Nota provides vision-based on-device AI solutions that remove the need for any server or cloud computing.	Korea
11	vRotors	<a href="https://www.vrotors.com/">https://www.vrotors.com/</a>	vRotors is a real time, live drone racing platform. From home, gamers use their PC or VR headsets to enter virtual cockpits and fly.	U.S.A.

List of exhibitors for JETRO Global Connection

October 12, 2020  
Japan External Trade Organization (JETRO)

No.	Company Name	URL	Introduction	Country/Region
<b>Mobility</b>				
12	Actasys	<a href="http://www.actasysinc.com">www.actasysinc.com</a>	Actasys is a leader in applying aerodynamic principles and its patented ActaJet technology to: Maintain the cleanliness of sensors, cool electronic components and systems, reduce drag.	U.S.A.
13	BlinkIn Technologies	<a href="https://blinkin.io/">https://blinkin.io/</a>	BlinkIn is an AI-powered B2B platform providing Human to Human collaborative solution that helps customers with reduced downtimes and onsite visits and Visual Bot that helps in automating troubleshooting and in self-service of devices and systems over smartphones with just the click of a button.	India
14	BycyShare Technologies Pvt Ltd	<a href="https://www.zypp.app">https://www.zypp.app</a>	Zypp Electric is a 3-year old startup in Electric Mobility space with a mission to "Make all Lastmile Deliveries Go Electric" with IOT enabled Electric Scooters, app based solution, making deliveries affordable & sustainable.	India
15	Cognata Ltd.	<a href="https://www.cognata.com/">https://www.cognata.com/</a>	Large-scale automotive simulation and synthetic training data for the ADAS and autonomous vehicle markets. Cognata accelerates time to market by delivering simulation solutions for the entire automated driving product lifecycle.	Israel
16	Cubed Mobile	<a href="https://cubedmobile.com/">https://cubedmobile.com/</a>	Cubed Mobile is a centrally managed and tightly secured workspace, encapsulating an entire smartphone in a super-app. It enables IT departments to deploy and manage secure sandboxed environments to any Android and iOS device.	Israel/ Russia
17	DRiiVZ Ltd.	<a href="http://www.driivz.com/">http://www.driivz.com/</a>	Driivz platform is an Innovative end-to-end EV charging and energy management solution, for global charge point operators and electric mobility service providers.	Israel
18	LAKE FUSION Technologies GmbH (LFT)	<a href="https://lf-t.net/en/">https://lf-t.net/en/</a>	LFT offers products for generating LiDAR-based environment models for safety-relevant applications to make autonomous driving as safe as flying	Germany
19	Shenzhen Guodong Intelligent Driving Technology Company (AutoX)	<a href="https://www.autox.ai/">https://www.autox.ai/</a>	Our AI driver can drive different vehicles, including RoboTaxi and RoboTruck. We want to empower the world with our AI driver to provide universal access to transportation of people and goods.	China
20	Statiq Mobility	<a href="https://www.statiq.in">https://www.statiq.in</a>	India's largest Public Electric vehicle charging network.	India
21	UISEE Technology (Beijing) Co., Ltd. Beijing	<a href="https://www.uisee.com">https://www.uisee.com</a>	a scalable intelligent driving system that can be easily adapted to many scenarios. AI algorithms + hardware/ software + cloud-based services	China
<b>Health Tech</b>				
22	Agartee Technology Inc.	<a href="http://www.agartee.com">www.agartee.com</a>	Agartee Technology provides Real-time remote monitoring technology, utilizing cellular-connected wearables and smart devices, for symptom monitoring and early detection.	Canada
23	CarePredict, Inc.	<a href="http://www.carepredict.com">www.carepredict.com</a>	CarePredict is the first AI driven Digital Health company for elder care that uses continuous machine observation of activities and behaviors and using deep learning, predicts health declines.	U.S.A.

List of exhibitors for JETRO Global Connection

October 12, 2020  
Japan External Trade Organization (JETRO)

No.	Company Name	URL	Introduction	Country/Region
24	CLEW Medical Ltd.	<a href="https://clewmed.com/">https://clewmed.com/</a>	CLEWICU is a real-time AI analytics platform designed to help providers make better informed clinical decisions by predicting the patient risk level, across various acute care settings.	Israel
25	FaceHeart Inc.	<a href="https://www.faceheart.com/">https://www.faceheart.com/</a>	The AI epidemic prevention of body temperature and heart rate monitoring system is a health monitoring solution that helps central units/ schools/ factories to manage people, employees or students.	Taiwan
26	Intuition Robotics Ltd. (ElliQ)	<a href="http://intuitionrobotics.com/">http://intuitionrobotics.com/</a>	ElliQ empowers older adults to remain independent in their own homes while achieving better health outcomes.	Israel
27	Kaaya Virtualization Tech Pvt Ltd	<a href="https://www.holosuit.com/">https://www.holosuit.com/</a>	HoloSuit skills humans and robots using Augmented/Virtual. Skilling Tech which can be used in Robotics, Education, Sports, Healthcare, Industrial Training	India
28	Kineto Tech Rehab Srl	<a href="https://www.reflex.help/">https://www.reflex.help/</a>	Re.flex is a MedTech start-up developing digital care programs for people with chronic musculoskeletal conditions. "re.flex" smart rehabilitation assistant opens a new way for physiotherapists and orthopedic doctors to collaborate and efficiently treat more people.	Romania
29	Mindify	<a href="http://www.mindify.net/english">www.mindify.net/english</a>	Mindify reduces clinical bureaucracy by enhancing Electronic Medical Records (EMR) with Artificial Intelligence (AI) aided Web forms.	Brazil
30	Onward Assist	<a href="http://www.onwardhealth.ai/">http://www.onwardhealth.ai/</a>	Onward provides a Full-stack Pathology workflow and AI-based analytics platform for cancer pathology. These enable cancer pathologists and oncologists with automated analytics tools for faster, more accurate reporting of cancer biopsies and IHCs.	India
31	Sproutel	<a href="https://www.sproutel.com/">https://www.sproutel.com/</a>	At Sproutel they make toys that help children newly diagnosed with a chronic illness learn and cope through play. Starting with diabetes and expanding into asthma and obesity, they aim to become the Cabbage Patch kids for Healthcare.	U.S.A.
32	StethoMe sp. z o.o.	<a href="https://stethome.com/">https://stethome.com/</a>	StethoMe is a smart, digital stethoscope for home use, while StethoMe AI is the software intended for intelligent sound analysis and supporting both the home user as well as a doctor during the diagnostic process.	Poland
33	SwissDeCode	<a href="http://www.swissdecode.com">www.swissdecode.com</a>	SwissDeCode provides rapid and portable DNA detection solutions to certify the authenticity, safety and quality of food products.	Switzerland
34	Turtle Shell Technologies Pvt Ltd	<a href="http://www.dozee.io">www.dozee.io</a>	Dozee is patent-pending remote contactless health vitals monitor that accurately tracks health parameters through a thin sensor sheet from under the mattress.	India
35	Unima	<a href="https://www.unimadx.com">https://www.unimadx.com</a>	Unima develops fast and low cost diagnostic devices for real time disease surveillance.	Mexico
36	Visme	<a href="http://eng.visme.ru/">http://eng.visme.ru/</a>	Visme is a company specializing in computer vision solution and have great experience in neural networks and CV.	Russia
