MESSAGE FROM ORGANIZERS

VIETNAM - JAPAN Supporting Industries Exhibition

Vietnam – Japan relationship has reached great achievements in terms of FDI. In first half of 2017, Japan ranks first among the countries and regions that have the largest registered investment capital in Vietnam. As of 20th June 2017, number of projects from Japan investing into Vietnam was 3,443 with total of registered investment capital was over USD 46.2 billion. A large number of Japanese companies, when being asked by the survey conducted by JETRO out of last year replied that they wanted to expand their production in Vietnam. Vietnam has been still evaluated as a significant production base and an attractive market by Japanese investors so far.

On the other hands, according to JETRO's survey on Japanese-affiliated companies in Asia and Oceania in 2016, the procurement rate of raw materials and parts, components by Japanese companies in Vietnam was only 34.2%. It was not so high in comparison with this figure in other neighboring countries such as, 40.5% in Indonesia, 57.1% in Thailand and 67.8% in China.

Therefore, JETRO and VIETRADE as the role of Governmental trade promotion agencies have cooperated to continuously organize “the 7th Vietnam-Japan Exhibition on Supporting Industries in Hanoi – so called SIE 2017”. The exhibition is offering a place for 40 Japanese exhibitors (as BUYERS) to show parts and components they expect to purchase in Vietnam and 40 Vietnamese exhibitors (as SELLERS) to exhibit their produced accessories and production capabilities to Japanese companies.

SIE 2017 is held under the framework of Vietnam-Japan Economic Partnership Agreement (VJEPA), which was signed by the two Governments in December 2008 and took effect from 1st October 2009. It was also one of the themes of the Vietnam – Japan Joint Initiative of phase 3.

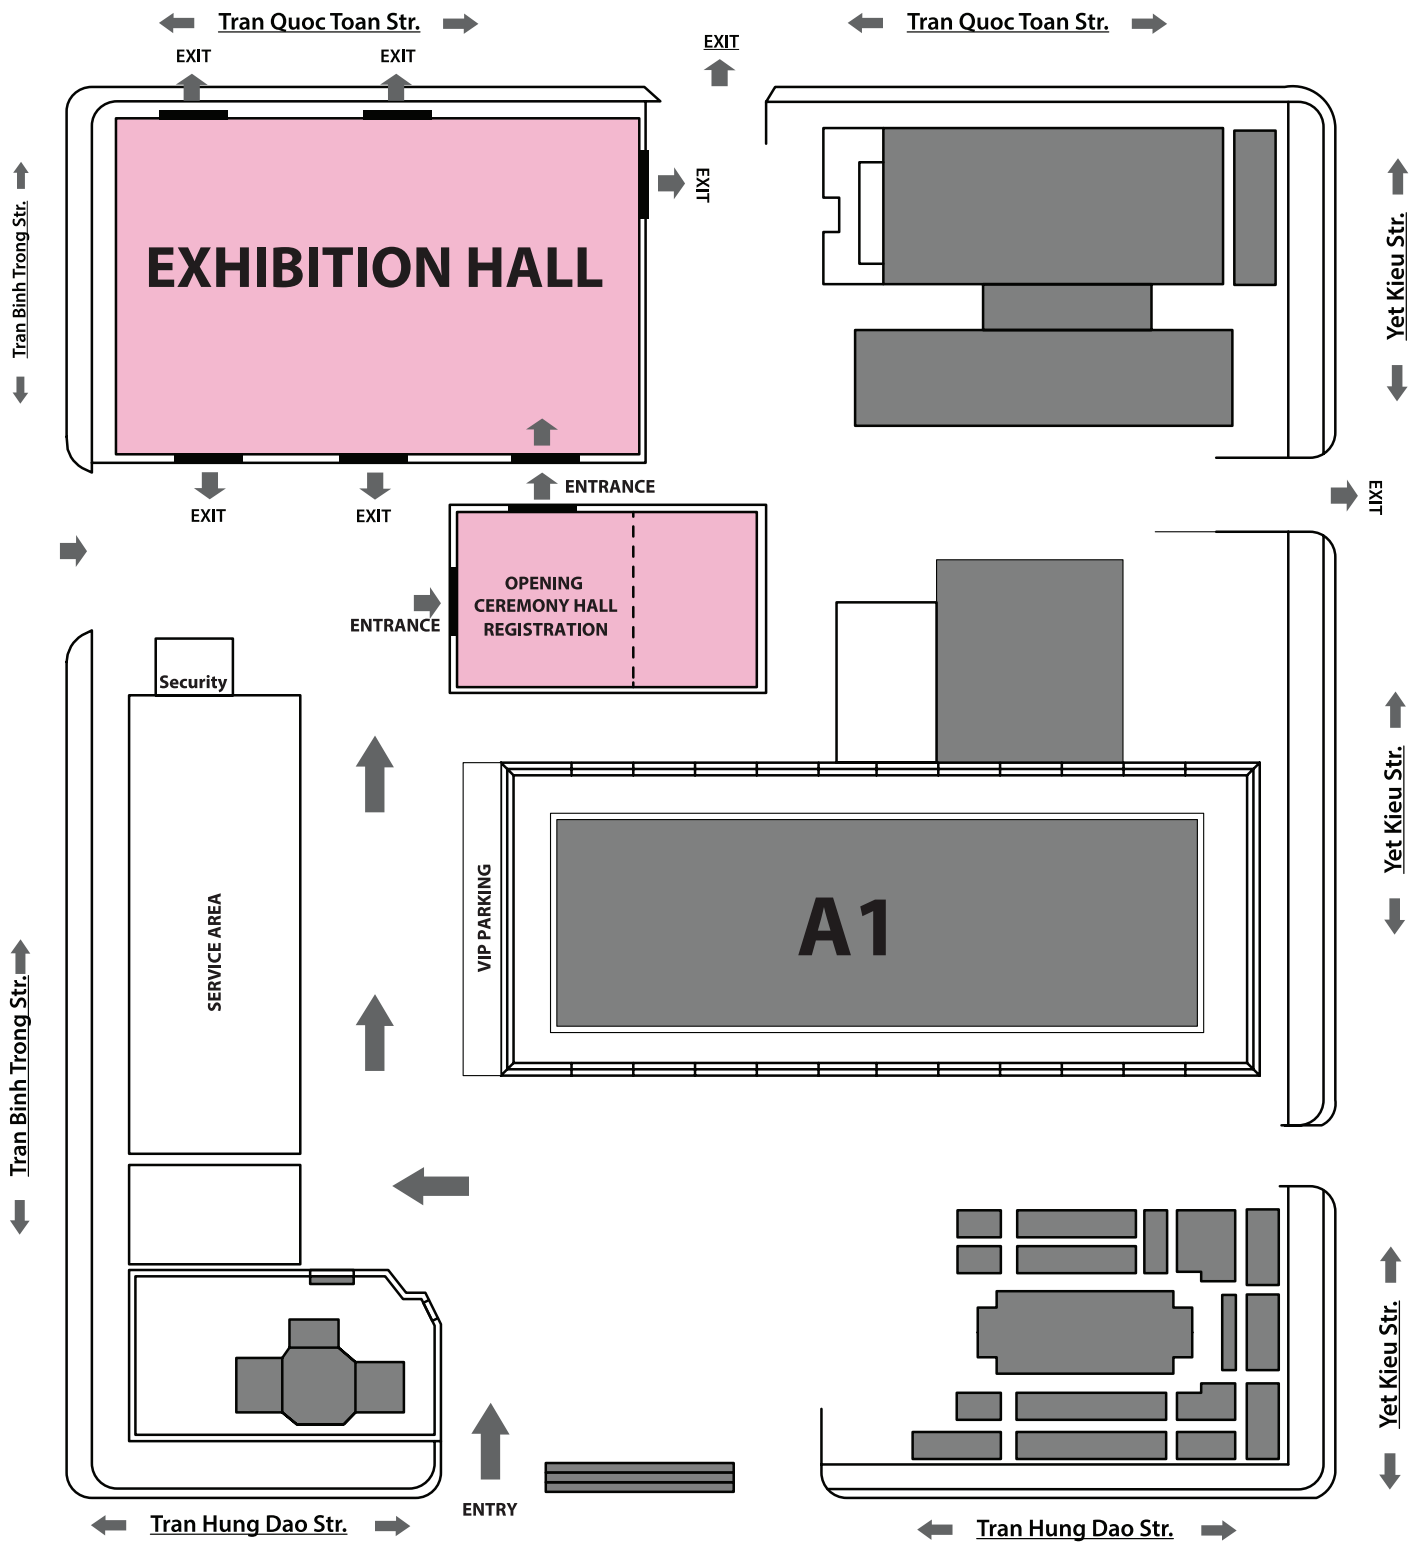

This year, SIE 2017 is also co-located with other 2 industrial specialized exhibitions; “NEPCON VIETNAM 2017 ” and “Industrial Components and Sub-contracting Vietnam 2017” by Reed Tradex Co., Ltd.

We are sure that the combination of these shows will make great effect for both exhibitors and visitors and being expected to create good business opportunities for all the concerned parties.

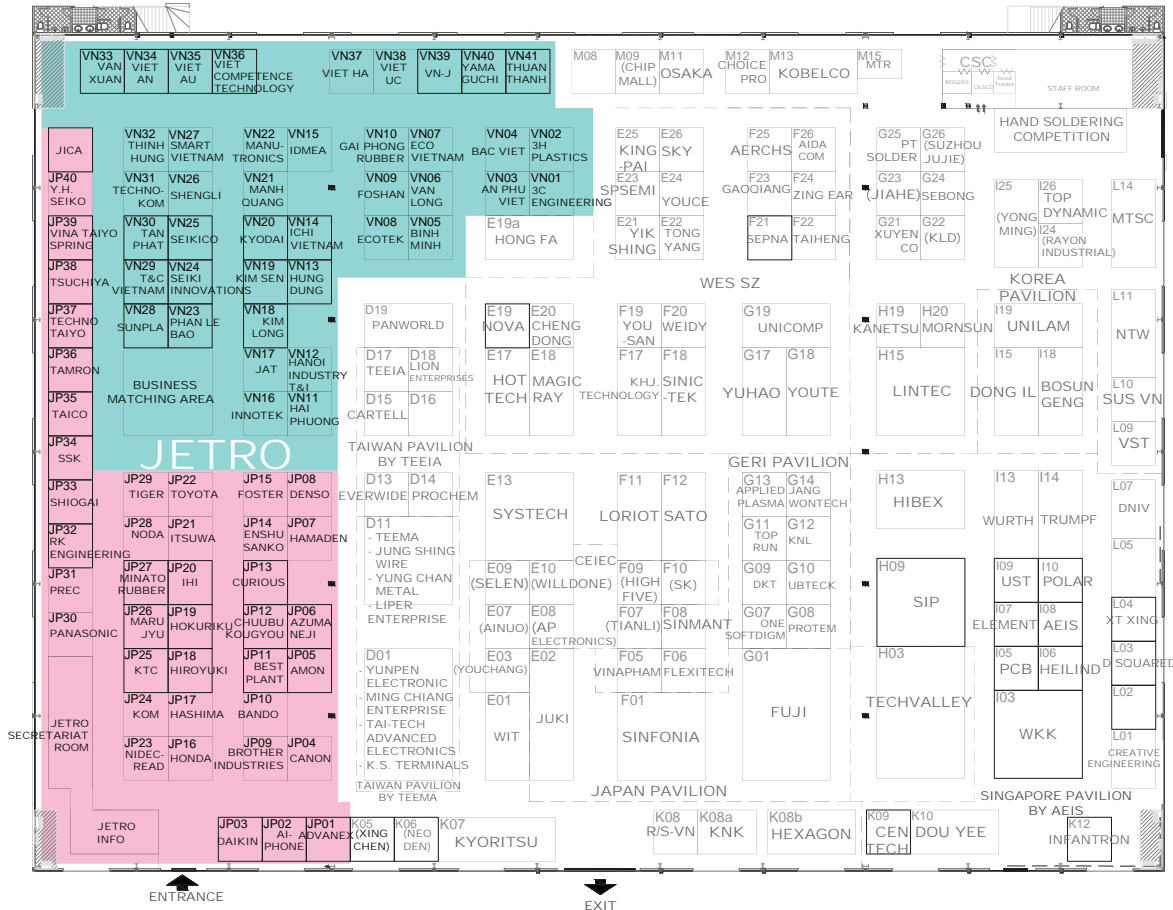

Also we expect all exhibitors and visitors to take full advantage of this event for networking.

Since joining the Colombo Plan in 1954, Japan has been providing financial and technical assistance to developing countries through ODA. JICA is in charge of Japanese ODA such as technical cooperation.

ORGANIZATION ACTIVITIES

1. JICA's activities for SME/SI development in Vietnam

JICA is supporting the development of Small and Medium Enterprises (SMEs) and Supporting Industries (SIs) which is one of the essential issues for the achievement of promotion of economic growth and international competitiveness of Vietnam.

- A) Industrial human resources development
- B) Establishment of skill testing system
- C) Lectures for Vietnamese companies on Japanese business management
- D) Manufacturing technique transfer to Vietnamese companies
- E) Improving Foreign Direct Investment policies

2. JICA's activities for Japanese enterprises to solve development issues of Vietnam

JICA has started new ODA program - Japanese Enterprises Proposing Program. Through this program, JICA supports Japanese enterprises expanding their businesses in Vietnam and, as a result, JICA expects the process of solving development challenges/issues in Vietnam will be accelerated.

- A) Basic survey
- B) Feasibility Survey for the private sector for utilizing Japanese technologies in ODA project
- C) Preparatory Survey for Sustainable Development Goals (SDGs)
- D) Verification Survey with the private sector for dissemination Japanese technologies
- E) Collaboration Program with the Private Sector for Disseminating Japanese Technology

Japan External Trade Organization is a Governmental-related Organization under the Ministry of Economy, Trade and Industry of Japan (METI). With about 40 regional offices throughout Japan and over 70 overseas offices in the world, JETRO's main function is to promote mutual trade and investment between Japan and the rest of the world. In the 21st century, JETRO has shifted toward strengthening foreign direct investment (FDI) into Japan and helping Japanese firms, especially SMEs expand their businesses into overseas markets.

With the aim of contributing to further development of economic relations between Vietnam and Japan and to the achievement of the prosperity in the region, the Representative Office in Hanoi has been conducting and involving in many various activities that brought mutual benefits to entrepreneurs of the two countries since its establishment in 1993.

ORGANIZATION ACTIVITIES

- Offer expert consultation with the latest legal writings and information relating to tax, customs, labor and investment procedures to Japanese investors who wish to invest or do business in Vietnam.
- Receive Japanese study missions to Vietnam for investment and business opportunities in Vietnam.
- Provide Japanese investors particularly SMEs with office space and facilities free of charge to promote their business and investment in Vietnam.
- Hold business matching between Japanese and Vietnamese enterprises in various fields.
- Organize an exhibition on supporting industries to match Japanese buyers with Vietnamese sellers.
- Hold workshops guiding new laws and regulations on Vietnam's business and investment issues for existing Japanese enterprises who are operating in Vietnam.
- React to inquiries from local and Japanese companies seeking information about potential partners.
- Create business chances for Vietnamese importers by inviting them to visit specialized trade fairs and production bases in Japan in fields of foodstuff, beverage, agriculture and supporting industries.
- Make a comparative survey of investment-related costs in major cities in the region and in Asia every year.
- Conduct an annual survey of current operation of the Japanese-affiliated firms in Asia and Oceania.
